

Ai. Example A in pitch-classes (0-11):

0											
	0										
		0									
			0								
				0							
					0						
						0					
							0				
								0			
									0		
										0	
											0

Aii: Example A in pitch-types **0 = C**:

C											
	C										
		C									
			C								
				C							
					C						
						C					
							C				
								C			
									C		
										C	
											C

Aiii: Example A in pitch-types (transposed) **0 = F**:

F											
	F										
		F									
			F								
				F							
					F						
						F					
							F				
								F			
									F		
										F	
											F

Bi. Example B in pitch-classes (0-11):

0											
	0										
		0									
			0								
				0							
					0						
						0					
							0				
								0			
									0		
										0	
											0

Bii: Example B in pitch-types **0 = C**:

C											
	C										
		C									
			C								
				C							
					C						
						C					
							C				
								C			
									C		
										C	
											C

Biii: Example B in pitch-types (transposed) **0 = B^b**:

B ^b											
	B ^b										
		B ^b									
			B ^b								
				B ^b							
					B ^b						
						B ^b					
							B ^b				
								B ^b			
									B ^b		
										B ^b	
											B ^b
